**MEDIA
PACK
2025**

N-KOM, has enjoyed a long and fruitful associations with Drydock magazine over the years. As one of the leading publications in the industry, it is a strategic marketing medium through which we promote our extensive experience in ship repair and conversion to key decision makers around the globe.

Nakilat-Keppel Offshore & Marine (N-KOM), Qatar

Lisnave have had a long association with Drydock magazine, one of the leading magazines in Ship Repair, read by key decision makers across the industry. We have found that the magazine offers comprehensive and in-depth analysis and comment on all aspects of ship repair and look forward to continuing our relationship with them in the future.

Lisnave

MarineShaft has used Drydock Magazine as one of our top strategic marketing partners for many years.

We aim to inform shipyards, ship owners and ship management companies worldwide about our emergency repair/replacement of rudder and propeller equipment, and we believe that Drydock Magazine is the right place to be seen. It has been our experience that Drydock Magazine is a professional magazine providing its readers with comprehensive and important information, and we value the relationship.

MarineShaft

Drydock Magazine

DryDock magazine, with a heritage of over 40 years, is the world's leading magazine for ship repair, maintenance and conversion, providing editorial quality, expert knowledge and insights in the ship repair market around the globe.

Offering comprehensive and in-depth analysis and comment on all aspects of ship repair, covering the global market and providing key focus on specific issues and areas of ship repair, DryDock Magazine talks to key decision makers across the industry.

It's heritage, authority and independence mean that it is read- and relied on- by senior management of ship owners, managers and operators, ship repair yards, equipment manufacturers and suppliers.

DryDock magazine is published quarterly with continuous editorial news and opinions available on its website and mobile

drydockmagazine.com

Editorial

In addition to the published editorial programme every issue will continue to provide comment and analysis across its regular features:

- On the Line – an insight into what makes a business tick
- Face the Facts – an industry perspective from a leading distinguished figure
- In Focus – the latest surface preparation and coating technologies in marine
- Worldwide News – a roundup of the most up-to-date repair and conversions projects from around the world
- News – an update on the latest advances in ship repair technology and industry appointments

In 2025 we will continue to provide the highly popular and thought provoking editorial features:

- Analysis – A special insight on specific areas within maritime repair – Green Tech, Cruise & Ferry repair, Specialist vessel repair and Containerships & Tankers
- Special Report – A new series of reports focusing on the latest hot topics including Cruise ships refurbishments, Superyacht repair and maintenance, Ballast water treatment and Emissions
